

# HOW TO ORDER

## *Explosion Proof Solenoid Enclosure – CXD*

### CXD 5 – V/... – R

CXD – Explosionproof casing  
 5 – Number of solenoid pilots  
     CXD 1-2-3-4 (small enclosure)  
     CSN 5-6-7-8 (large enclosure)

V – Coil Voltage/Frequency

| <b>Nominal values</b> | <b>Operating range</b> |
|-----------------------|------------------------|
| 24/50                 | 24V/50Hz               |
| 24/60                 | 24V/60Hz               |
| 24/DC                 | 24 V/alternate current |
| 110/DC                | 110V/direct current    |
| 110/50                | 110-127V/50Hz          |
| 110/60                | 110-127V/60Hz          |
| 220/50                | 220-240V/50Hz          |
| 220/60                | 220-240V/60Hz          |

R – R = electric resistance group with thremostat.  
     Available in two versions  
     GRT70 = 70 WATT (for CSN 1-2-3-4)  
     GRT120 = 120 WATT (for CSN 5-6-7-8)
